This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. # EXPLANATIONS AND DIRECTIONS FOR USING THE VOCABULARY.

---

## EXPLANATIONS.

| | |
|---|---|
| a. *denotes* adverb.* | G. *denotes* Marcus' Latin Grammar. |
| c. ——— conjunction. | m. ——— masculine. |
| c. (*with a noun*) common gender. | n. ——— neuter. |
| f. ——— feminine. | p. ——— preposition. |
| | v. ——— *vel*, or. |

The italic terminations indicate the part to be cut off, for the purpose of adding the genitives of nouns, and the perfect tenses, supines, and passive participles of verbs.

The final numerals refer to the Syntax at the head of each chapter of Marcus' Latin Delectus; the roman to the Chapter; the italic to the Rule.

The genders of nouns, and the quantity of penultimate syllables are not given in this vocabulary, except in those instances which are deviations from general rules; in every other respect the following directions are quite sufficient for the guidance of the pupil.

## DIRECTIONS.

I.—Genders of Nouns according to their respective Declensions.

| Declensions. | Nom. | Gen. | |
|---|---|---|---|
| 1. | a | ae | Feminine, G. 295. |
| | ae | arum | |
| 2. | r, er, us | i | Masculine, G. 299. |
| | i | orum | |
| | um | i | Neuter, G. 42, b. 300. |
| | a | orum | |
| 3. | a | um, *v.* ium, Neuter, G. 42 b. | |
| 4. | us | ûs | Masculine, G. 368. |
| | u | u | Neuter, G. 370. |
| 5. | es | ei | Feminine, G. 371. |

* Adverbs ending in *iùs* are of the comparative degree.

II.—Quantity of ordinary penultimate syllables, G. 797—819.

Penultimate syllables are long, except those in *ĭ* and *ŭ*, which are short.

III.—Quantity of penultimate syllables of nouns increasing in the genitive case.

Nouns increasing in *ā* are long, as æt*as*, ātis. G. 738.
——————— *ĕ* are short, as gen*us*, ĕris. G. 744.
——————— *ĭ* are short, as mil*es*, ĭtis. G. 750.
——————— *ō*, mas. and fem., long, as sermo, ōnis. G. 755.
——————— *ŏ*, neut., short, as temp*us*, ŏris. G. 760.
——————— *ŭ* short, as cons*ul*, ŭlis. G. 766.
——————— *ŭ* short, G. 770.

IV.—Conjugations of Verbs.

| | | |
|---|---|---|
| Verbs in *o* — *are* | are of the first conjugation. G. 239. | |
| *or* — *ari* | | |
| *'o* v. *io* — *ere* | are of the third conjugation. G. 241. | |
| *or* v. *ior* — *i* | | |
| *io* — *ire* | are of the fourth conjugation. G. 242. | |
| *ior* — *iri* | | |

Verbs in *eo* and *eor*, are of the second conjugation. G. 240.

V.—Formation of Perfect Tenses and Supines.

| | | | |
|---|---|---|---|
| Verbs in *o* — *are*, | make the perfect in *avi*, | supine in *atum*. | G. 405. |
| *eo* — *ere* | ——————— *ui* | ——— *ĭtum*. | G. 409. |
| *io* — *ire* | ——————— *ivi* | ——— *ĭtum*. | G. 430. |

The perfect tenses and supines of such verbs as are exceptions, as well as of verbs of the third conjugation, may be formed from their respective roots, by cutting off the italic termination.

In the English Exercises for retranslation, the pupil must always refer to the General Vocabulary* for the inflections of the Latin words already supplied.

The Supplementary Vocabulary, containing such Latin words as are not always repeated in the English Exercises for retranslation, must also be used in reference to the General Vocabulary.

---

* The Author has found it necessary to give an Appendix for such words as have been inadvertently omitted in compiling the General Vocabulary.
